See attached for response to public records request dated 6/12/09.

The audio recording of the 6/11/09 Council meeting is ready to be picked up at City Hall.

Trena McManus

According to the email from Councilor Harper of 6/1/2009 (12:32 pm), there is also a letter that was attached to be included. The letter was not attached to the document.

Generally, when a document is excluded from an agency response, there is a notation of the document and why it was excluded, as suggested from the state archivists office.

Please advise as to why the letter was not included.

Thank you,

Angela Flood

I gave you everything I received. I double checked the email in my computer and there was no attachment. I assume that she is referring to her response as a letter, but you would have to ask her.

Bcc: Darrell Flood <teagle7@gmail.com>

Can you help sort this out? Generally, if a records clerk doesn't know if they got something or not, they follow up with the original sender. I have been instructed by Trena to find out from you directly. Highly irregular, but I've come to expect it.

But, I guess in Lafayette's case, my money gets me self service.

Was the letter you were referring to the email? Your statement refers to a letter and an email.

I received the evaluations and the email correspondence between you and Diane. But, there was no letter attached to the document.

Unfortunately, the records request cannot be closed until the matter is resolved.

Thank you,

Angela Flood

According to the attached, there was a letter submitted by Councilor Harper with her email. I have asked Trena McManus for this letter. She advises she assumed the email was the letter. But the statement is very specific - letter and email.

I was instructed to contact Councilor Harper myself to complete this request. I did that last week and have still not heard back.

Please advise if I need to complete a formal complaint form to request your assistance in getting this records request completed.

Thank you,

Angela Flood

Good morning Ms. Flood:

I did not specifically review all 50 some pages of the attached document, but I am unable to understand what part of your request was not honored.

Perhaps you could forward a copy of that request to me and it may well be self-explanatory. Once I understand the issue, I will advise what, if

anything, you need to do further.

Brad Berry

Yamhill County District Attorney

Angela: Once again you are talking about things that you know nothing about. Documents pertaining to the Dayton Prairie Groundwater Management Advisory Board do go back more than ten years because that was part of the lawsuits filed to prevent the cities from constructing the wells or obtaining water rights. I'm attaching the settlement agreement, signed by the Mayor of Lafayette in 2000 that designates that there will be a representative from each city. I was told I was the representative when I got here and have been ever since. We have not paid any fees associated with this board. If you request further information concerning this group, you are going to have to be more specific in what you want. Any unspecific requests will require more staff time than I'm sure you will be willing to pay for. Diane

There is the Dayton Prairie Water Association. And there is the Dayton Prairie Groundwater Management Advisory Board.

I am looking only for information on the latter. This was a board filed with the state in 2002. So, the records shouldn't go back that far (10 - 12 years).

Specifically, at the current time, I am looking for the time period the council authorized the city administrator to be a member of the board filed with the state. Dayton cannot locate a payment made to the state for the renewal of this fee from last November. I cannot locate one made by the City of Lafayette. Yet, the state advises it was paid.

So, can you please advise what you have available for this entity? Not the Dayton Prairie Water Association.

Please also advise appropriate costs.

Thank you.
