Subject: Business List & Tax ID Number

Darrell: The current business registration list is attached. This list includes the downtown businesses as well as Home Occupations. You should be able to tell which are which by the addresses. The city's federal tax ID # is 93-6002196. I assume that you are wanting this for donation request letters for Heritage Days. However, the City Attorney advises that this should not be included in the request letters. He feels it would be better to include a statement something along the lines of "Your donation may be tax deductible. You are advised to check with your accountant or tax consultant." He feels to do otherwise would be giving tax advise, which we should not be doing. Diane
