Theft of Services Complaint

10 messages

Angela Flood <angela.flood@gmail.com>

Fri, Jun 14, 2013 at 1:26 PM

Please note the information forwarded to Preston Polasek, City Administrator for Lafayette.

Beyond the fact that I should not have to resort to filing a police report, I should not have been had services stolen from me in the first place. Once the water goes through the meter, I own it.

Beyond Darrell as a witness, the city engineer also witnessed the act even after being advised permission was not given.

As there appears to be no compensation coming, I am requesting that the contractor be cited for theft of services. I note that the level of the misdemeanor varies with the amount stolen.

I don't have the name of the contractor, as the contract documents are not available. Perhaps Preston will provide that to you.

Thank you.

Angela Flood

Also, when you talk to the contractor, you might want to remind them that theft of services is a chargeable misdemeanor at the state level.

On Wed, Jun 12, 2013 at 9:13 PM, Angela Flood <angela.flood@gmail.com> wrote:

Three separate times, today, Darrell was asked by the street pavers if they could use our water for their project. Three separate times, he told them no. He explained that water was ridiculously expensive. The third time was by the city engineer, who then advised they could use the fire hydrant.

Twice, he observed them using **our** water to fill up their systems. He did not tell them to stop because, apparently, what he said made no difference.

I don't know where they come from but where we come from, no means no.

So, given that our water was used, against our express consent, I am quite certain that you will figure out a way to compensate us for the use.

Thank you.

Angela Flood

PS - The spring has started popping open 3 feet up from where the finished pavement is. It started cracking this afternoon. This evening, the pavement is wet above the area. It wasn't when I got home. The city engineer was certain they figured it out, this time versus the last time this was tried. Might want to let him know - not so much.

Angela,

Thanks for the information below. I was doing some checking on this today, as I know Preston is out of the office for a few days. I wanted to make sure you knew that this is not a City matter and they would have no way of "crediting" your account. It is an issue between you and the contractor who went onto your property and took the water after being told not to.

If you would like, I can assign a Deputy to take a report of trespass for coming onto your property and taking the water. The theft, from what I understand, would have totaled about 5 gallons of water and based off the rate charged per cubic foot, would equate to around 12 cents.

Please let me know how you would like to resolve this issue. Like I mentioned before, it is between you and the contractor and not the City.

Captain Tim Svenson

Yamhill County Sheriff's Office

It sounds like you have already done enough research to know how much was stolen and a perceived value of it. You also have noted a trespassing charge, as well.

Whether or not the amount was 12 cents or 12 dollars or 1200 dollars, that only determines the level. Don't belittle anyone, based on what you consider a value or not. It resonates with me, regarding the lack of inaction for people who have been victimized.

I will leave the choice of pursuing this to Darrell, as he was the one who the permission conversation was with.

Thank you for the information.

Angela,

Please call my cell, 503-470-003, so we can talk in person. In no way was I belittling you. I was merely letting you know what I found out and an option to move forward. In cases like this we have to choose the most appropriate crime to move forward with and wanted you to know there was another option.
