

Well, all of the citizens who are looking for government that is open and accessible got some great news today.

Your citizens group web site - www.newlafayette.org - has been recognized in an arena of highest regard.

Please follow the link to <http://www.samadamsalliance.org>

Darrell made contact with them and they are very interested in our little berg. So, it appears, we are going national.

Seems we are not alone in our fight. Not that we thought we were.

Thank you to all of the people who have gotten us this far.
