PUBLIC NOTICE OF WATER USE REQUESTS
October 10, 2006

*This notice is also available on our web page at the following address:
http://www.wrd.state.or.us/cgi-bin/notices.pl?water_rights*

This publication lists agency activities requiring public notice. It also describes public comment processes and deadlines. Types of water use requests in this week's Public Notice include:

- * **Permit Application Initial Reviews, Proposed Final Orders, and Final Orders**
Applications for permits to use, store, divert or pump surface water or groundwater. Includes applications by the state Departments of Fish & Wildlife, Environmental Quality or Parks and Recreation for water to be used and kept in-channel.
- * **Water Right Cancellations**
Abandonment of perfected and developed water rights and requests to cancel all or a portion of rights.
- * **Applications for Extensions of Time to Perfect Water Right Permits**
New applications received and proposed final orders regarding requests to extend time limits to fully develop water use projects and beneficially apply water.
- * **Applications for Limited Licenses**
Requests to use water for 5 years or less. Licenses are subordinate to other rights and may be revoked if a use is found to injure other water right holders.
- * **Proposed Short-Term Lease Agreements to Convert Existing Rights to Instream Use**
Short-term leases by water right holders of their water rights for instream uses.

- * **Transfer Preliminary Determinations**
Requests to change point of diversion or appropriation, place of use, and character of use upon which the public may protest the application and Department's preliminary determination.

- * **Notice of Open Comment Period Public Hearing-
St Laurent Land and Cattle Co Hydroelectric Project**

The Public Notice is published each week on the Department's web site at <http://www.wrd.state.or.us/>. If you would like to receive a *free* weekly notification when it is published, please send your request to "Jonnine.L.SKAUG@ wrd.state.or.us".

Permit Application Initial Reviews and Proposed Final Orders

The following pages of this notice list permit applications that the Oregon Water Resources Department is evaluating for compliance with state water laws and regulations. Public participation and comment is encouraged. Opportunities for public involvement vary according to the stage of the permit evaluation.

Ground water permit applications in the Deschutes Basin (basin 5) may seek to provide mitigation pursuant to the Deschutes Ground Water Mitigation Rules by implementing a mitigation project or by obtaining mitigation credits made available by a completed mitigation project. Surface water and/or reservoir permit applications in the Deschutes Basin may be proposed ground water mitigation projects.

Initial Review Stage (IR in the "Stage" column of the permit listing)

The Department has given the applicant the results of an initial review of water use restrictions, water availability and other limits that affect the agency's decision on whether to issue a permit. The applicant has asked the agency to proceed to the next stage of evaluation. The Department welcomes comments from interested persons, agencies and organizations on the proposed water use.

The comment deadline for initial reviews appearing in this public notice is 5pm, Thursday, November 9, 2006. Although we cannot respond individually to all comments, each will be considered as the agency makes its permit decision.

Proposed Final Order Stage (PFO in the "Stage" column of the permit listing)

The proposed final order is the Department's preliminary decision on the water use request. It will indicate how the comments received on the application in the first stage were considered. The PFO documents the agency's decision through specific findings. If appropriate, it includes a draft permit specifying any conditions or restrictions on the use. Persons interested in receiving a mailed copy of a PFO must pay a statutorily-required fee of \$10. (Any person paying \$10 to receive a PFO by mail will also receive a copy of the Final Order when it is issued.) PFO's may be viewed for free at the Department's Salem Office or at the district watermaster office nearest the proposed use. Those disagreeing with the Department's decision as expressed in the PFO have 45 days to file a protest.

The protest deadline for proposed final orders appearing in this public notice is 5pm, Friday, November 24, 2006.

The protest filing fee is \$250 for everyone except the applicant. Detailed requirements for filing a protest will be sent with copies of the PFO. Persons who support the PFO may file a "standing" fee of \$50 to retain the ability to participate in future proceedings relating to an application. Before participation is allowed, an additional \$200 will be required at the time of the proceeding.

Water Right Cancellations

ORS 540.621 authorizes the Director to issue an order canceling a perfected and developed water right whenever the owner certifies under oath that the right has been abandoned and requests a cancellation of the right.

The Department has received affidavits from owners of land to which a water right is appurtenant stating the owner has abandoned the water right and request the Department to cancel portions of the right appurtenant to the land.

The Department proposes to issue orders canceling all or a portion of the following water right(s):

**Applications for Extensions of Time
to Perfect Water Right Permits filed pursuant to OAR 690-315**

Consistent with OAR 690-315-0050, the Department will accept public comment on the following extension applications until November 9, 2006. Following the comment period, the Department will prepare and issue a proposed final order. Individuals who would like a copy of the proposed final order may request copies by sending a request and \$7.00 (the estimated copy fee charge). Please indicate the file number. Copies of the proposed final order may be viewed at the Department and/or self copied for a lesser charge. Individuals wishing to obtain a copy of the extension application should contact the Department by phone or in person as extension application materials can range between four to fifty pages.

Extension file information is included in the following format:

- (a) Applicant name and address;
- (b) County of application
- (c) Amount of water use permitted in gallons per minute (gpm), cubic feet per second (cfs) or acre feet (af) of storage;
- (d) Common name of water source(s) listed in the permit;
- (e) Application Number - Permit number;
- (f) Use allowed in the permit;
- (g) Proposed extended date of completion as requested by the extension applicant

Applications for Limited Licenses

A limited license allows the right to use or store water for no more than 5 consecutive years. Use of water under a limited license is subordinate to all other authorized uses and may be shut-off at any time to satisfy those other uses. In addition, the Department may revoke a limited license if its use causes injury to any other water right or minimum perennial streamflow.

Licenseses must maintain a record of how much water they are using (ORS 537.143). **The Department may approve a license after October 24, 2006, upon finding that the proposed water use will not impair or be detrimental to the public interest (OAR 690-340-030).** The public is invited to provide comments that will assist the Director in determining whether the use would impair or be detrimental to the public interest.

Proposed Short-Term Lease Agreements to Convert Existing Rights to Instream Use

Under OAR 690-77-077, the Department is required to give public notice of proposed lease agreements. A lease agreement is a contract between a water right holder and another party to lease water from an existing water right for use instream for a limited time. The state is the trustee for water rights leased for instream use. For the term of the lease, the water right holder agrees to suspend use of water under the original right.

The local state watermaster has reviewed the proposed lease and believes the proposed change to instream use will not likely injure other water rights from the same source.

The deadline for submitting claims of injury to existing water rights or enlargement of the original right against a proposed lease agreement is October 31, 2006. Parties to the lease, including the Department, will review any such claims before the lease agreement is finalized. The lease agreement files are available for viewing at the Salem office of the Water Resources Department.

Transfer Preliminary Determinations

A Preliminary Determination provides the Department's conclusion as to whether a proposed change in place of use, point of diversion or appropriation, or character of use of an existing water right should be approved. Changes of water rights may be proposed in an application for transfer (including instream or historic POD), exchange, or substitution.

The Department has issued preliminary determinations on the transfer applications listed below. In addition to this notice, the Department is complying with ORS 540.520(2) that requires publication of notice in a local newspaper for all transfers except those proposing a change in place of use only or a change in point of diversion of less than ¼ mile where there are no intervening diversion points.

Any person may protest the application and preliminary determination or may file a standing statement. Pursuant to OAR 690-380-4030(3), protests must raise all reasonably ascertainable issues and include all reasonably available arguments supporting the person's position. In addition, protests must be accompanied by a \$250 protest fee. A Water Right Transfer Protest Form is available at <http://www.oregon.gov/OWRD/PUBS/forms.shtml> or by calling 503-986-0881. Protests must be received by the Department on or before November 9, 2006, or within 30 days of the last date of publication in a newspaper, whichever is later. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

T-9218 filed by LINDA M. NELSEN, PO Box 3367, Kerby, OR 97531 proposes a change in point of diversion under Certificate 13912. The right allows the use of 0.15cfs (priority date MAY 31, 1887) from EAST FORK ILLINOIS RIVER in Sec. 33, T39S, R8W, W.M. for IRRIGATION in Sec. 33. The applicant proposes to move the point of diversion approximately 6 miles downstream (Sec. 33, T38S, R8W, W.M.). The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

T-9229 filed by THOMAS & NANCY ACORD, PO Box 3280, Kerby, OR 97531, proposes a change in a point of diversion under Certificate 13912. The right allows the use of .27cfs (priority date MAY 31, 1887) from EAST FORK ILLINOIS RIVER in Sec. 33, T38S, R8W, W.M. for IRRIGATION. The applicant proposes to move the point of diversion approximately 6 miles downstream (Sec. 33, T38S, R8W, W.M.). The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Comments on this application for preliminary permit for a new hydroelectric project are requested from interested citizens, organizations, governmental entities, and other parties. Comments are requested on whether the impacts of this project are such that they might be cumulative with other proposed or existing projects in the Rogue basin. Requests for additional studies related to project impacts may also be submitted.

The application and supporting documents can be viewed at the Water Resources Department, 725 Summer Street NE, Salem, Oregon 97301. The project is also filed with the Federal Energy Regulatory Commission (FERC) as docket p-12700.

Comments may be submitted at the public hearing, or in writing to the Oregon Water Resources Department, by 5 p.m. November 3, 2006.
